

Recruitment Process Improvement

STEPCHANGE PROVIDES

- Recruitment process consulting
- Rapid capture of existing process and simulation of new improved process using Lean Six Sigma technology
- Fast return on investment.

Where does your Trust fit?

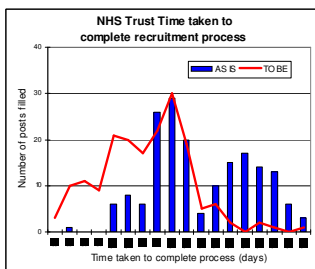

As a specialist and innovative provider to the NHS, Stepchange use leading edge Lean Six Sigma technology combined with experience in the Healthcare sector, to undertake a comprehensive transformation of the end to end recruitment process in Acute Trusts, and to simulate a new improved process in a totally risk free environment.

The above graph shows examples of Trusts where we have analysed the process and recommended a series of improvements which are measurable in terms of Cost, Quality, Compliance, and Reduction in time taken to recruit.

The Stepchange Solution:

- Reduces the time taken to recruit, and spend on temporaries and agency staff.
- Improves Compliance and Quality.
- Frees the time of Clinicians and Hiring Managers.
- Provides visibility and improves communications between recruitment and managers.
- Provides an effective audit trail.
- Reveals the hidden metrics, enabling recruitment to be managed more effectively.
- Enables recruitment to offer a high degree of customer service internally and externally.
